Training and Outreach

Tours and training for the general public or special interest groups are available upon request. Traditionally, the PMC staff hosts annual training for NRCS field office personnel. Other outreach activities include distribution of plants which are part of the heritage of the Plains and Woodland Indians, and educational demonstration plantings.

For More Information

To obtain information on conservation uses for plant releases, contact your local NRCS office. Seed or plants can be obtained from a commercial seed vendor or nursery in your area, or call your NRCS office for local vendors.
